Reykjavík, 9. apríl 2024 MSS24040060

Borgarráð Ráðhús Reykjavíkur

Fyrirhuguð ferð formanns borgarráðs til Stokkhólms til þátttöku á Stockholm Sustainability Summit 16-17. apríl 2024.

Formaður borgarráðs Dagur B. Eggertsson heldur til Stokkhólms 15-17. apríl, til að taka þátt í Stockholm Sustainability Summit. Fundurinn er haldinn í þriðja skipti en að þessu sinni snýr meginumfjöllunarefnið að ákvarðanatöku til að flýta fyrir loftslagsaðgerðum í borgum (role of data & evidence-based decision making for accelerating climate action in cities).

Formanni borgarráðs hefur verið boðið að halda aðalræðu í kvölddagskrá á viðburðinum til að ræða sjálfbærni borga með helstu hagsmunaaðilum og kjörnum fulltrúum. Fjallað verður um forystu í stafrænum umskiptum og hvernig það verður sífellt mikilvægara að nýta gögn og innsýn til að stuðla að sjálfbærri þróun bæði í borgum og atvinnulífi þeirra.

Allur ferða- og gistikostnaður formanns borgarráðs er greiddur af fundarhöldurum.

Virðingarfyllst, Helga Björk Laxdal skrifstofustjóri borgarstjórnar

Stockholm Sustainability Summit Event Schedule

Stockholm Sustainability Dinner

16 April 2024, 18:00-20:00

Regeringsgatan 29, 111 53, Stockholm

Overview

In conjunction with our annual sustainability summit, an exclusive dinner will be held the night before to discuss today's pressing sustainability challenges among key stakeholders and leaders in Stockholm. The theme for the evening will go along with the summit's (*The data driven city*) but focus more on leadership in the digital transition and how it is increasingly important to leverage data and insights in order to promote sustainable development in both cities and the business community.

Attendees

The audience (roughly 50 participants) will include those in leadership or a high-level capacity from key Swedish companies as well as politicians and others in leading positions who work within sustainability. We hope to include those in the tech and innovation sector as they are key to creating smarter, more sustainable solutions.

Format and Agenda (subject to change)

Introduction to evening and short speech

- Andreas Hatzigeorgiou, CEO, Stockholms Handelskammare

Keynote speech

- Keynote

Fireside chat/Questions from the audience

- Keynote
- Andreas Hatzigeorgiou, CEO, Stockholms Handelskammare

Stockholm Sustainability Summit: The data driven city

17 April 2024, 15:00-17:30

Regeringsgatan 29, 111 53, Stockholm

Overview

In its third year the Stockholm Sustainability Summit will focus on the role of data & evidence-based decision making for accelerating climate action in cities. The summit will be broken down into two sessions, in the first the focus will be on how and why we should use data in decision making and the importance of incorporating these insights at all levels of policy, business, and other organisations as we strive to build sustainability cities. The second session will aim to showcase various real-world examples of how data can be used to inform and build smarter, more sustainable cities.

More information can be found here on our past summits: <u>https://stockholmshandelskammare.se/stockholm-sustainability-summit/</u>

More information about the Stockholm Chamber of Commerce is available on our website: <u>https://stockholmshandelskammare.se/</u>

Attendees

The audience (roughly 150-200 participants) for our summits in the past has included those working within sustainability in some capacity, whether that is in property development, built environment, infrastructure, mobility, etc and has also included politicians and civil servants as well as others in academia and non-profit organisations. This time we hope to include those in the tech and innovation sector and those who are working with data.

Format and Agenda (subject to change)

Session 1: Data in decision making (15:00-16:00)

- Introduction and welcome by Andreas Hatzigeorgiou, CEO, Stockholm Chamber
- Keynote speaker: Paul Wilson, Chief Business Officer, Connected Places Catapult (20 minutes)
- Q&A w/ keynote + moderator (Daniella Waldfogel, Vice CEO, Stockholm Chamber)
- Panel + moderator (Daniella Waldfogel, Vice CEO, Stockholm Chamber)
 - Pru Ashby, Head of Sustainability, London & Partners
 - o Annika Jacobson, Special Coordinator for Climate Action, City of Stockholm
 - Possible third participant

Break (16:00-16:15)

Session 2: Data in practice (16:15-17:30)

- Presentation 1: Startup (David Lindström, Head of Commercial, Univrses)

- Presentation 2: Built Environment (Anna Kerr, Executive Director, Sweco)
- Presentation 3: Telecoms (Kristofer Ågren, Head of Product, Data Insights & IoT, Telia)
- Panel + moderator (Daniella Waldfogel, Vice CEO, Stockholm Chamber)
 - o David Lindström, Head of Commercial, Univrses
 - Anna Kerr, Executive Director, Sweco
 - o Kristofer Ågren, Head of Product, Data Insights & IoT, Telia

London x Stockholm After Work

17 April 2024, 17:30-20:00

Regeringsgatan 29, 111 53, Stockholm

Networking event to follow the summit, in partnership with London & Partners. Supported by the Mayor of London, London & Partners is the business growth and destination agency for London. As part of their strategy to strengthen and promote the city's global business network they will be visiting Stockholm and the Nordics to build connections in these new markets with a delegation of UK-based startups that have demonstrated high growth potential. These 10 up and coming companies, representing sectors such as PropTech, CleanTech and Circular, will be on site to meet with as well as other partners and actors within climate-focused investment & innovation.

Keynote Speaker Information

The Stockholm Chamber of Commerce will cover flight and hotel costs for the speaker. We recommend that the speaker make the bookings and send an invoice to the Chamber for reimbursement.

- Accommodation: we recommend Hotel At Six (https://hotelatsix.com/)

Stockholm Sustainability Dinner

16 April 2024, 18:00-20:00

Regeringsgatan 29, 111 53, Stockholm

Overview

How can we build and lead cities that are embracing the digital transition towards a sustainable future?

In conjunction with our annual sustainability summit, an exclusive dinner will be held the night before to discuss today's pressing sustainability challenges among key stakeholders and leaders in Stockholm. The theme for the evening will go along with the summit's (*The data driven city*) but focus more on leadership in the digital transition and how it is increasingly important to leverage data and insights in order to promote sustainable development in cities. Dagur Eggertsson will provide his perspective from Reykjavik and what changes the city as made to be more data driven, how that came about, and how it functions today. As the former chair of the OECD Champion Mayors for Inclusive Growth Initiative he will also share how European cities are reaching their sustainability goals by sharing best practices and building strong networks both between cities and within them.

Attendees

The audience (roughly 50 participants) will include those in leadership or a high-level capacity from key Swedish companies as well as politicians and others in leading positions who work within sustainability. We hope to also include some from the tech and innovation sector as they are key to the development of smarter, more sustainable solutions.

Agenda

- 18:00-18:20 Guests arrive and mingle (seated by 18:20)
- 18:00-18:20 Canapés and drinks served
- 18.20-18.25 Introduction by Andreas Hatzigeorgiou
- 18:25-18:30 Chef Oskar Persson presents menu
- 18:30-18:50 Dinner served
- 18:50-19:10 Keynote speaker (Dagur Eggertsson)
- 19:10-19:30 Dinner cleared, dessert served

19:10-19:30 Fireside chat with keynote speaker + Andreas

19:30-19:50 Q&A with audience (Dagur + Andreas as moderator)

19:50-19:55 Closing remarks (Andreas)

19:55-20:00 Finish eating

Fireside Chat

Possible questions:

- Can you share three lessons you have learned about the role of leadership and governance to promote sustainability?
- How can city leaders effectively engage citizens in decision-making processes to ensure inclusion and sustainability in urban planning?
- How can city administration effectively leverage data to address sustainability challenges and make informed decisions that are both evidence-based and inclusive?
- When cities implement smart technologies, there are often concerns about exacerbating existing inequalities. Groups that are already marginalized, do not have the finances or the time to get involved are at risk of being left out of development. How can city leaders ensure that smart city initiatives prioritize equity and inclusion, especially for marginalized communities?
- You have emphasized the importance of cooperation in city governance. Can you share successful examples of cooperation models between politicians, business, citizens, and civil society to promote sustainability initiatives?
- Building sustainable cities requires a long-term vision and planning. At the same time, it is clearer today than before that there are constant fires that must be put out. How do you balance short-term political pressure and changing public opinion with the need for long-term strategic and sustainable urban development?
- To track progress towards sustainability goals, robust metrics are essential. How can cities develop meaningful indicators and measurement methods to assess the effectiveness of their sustainability initiatives and ensure accountability to citizens?
- Cities around the world face similar sustainability challenges. How can international cooperation and knowledge sharing between cities facilitate the exchange of best practices and innovative solutions to create more sustainable urban environments?
- What do you see as the most pressing challenges and opportunities for cities to achieve their sustainability goals, and how can city leaders proactively prepare for these future challenges?
- What role has the business community played in your time leading Reykjavik? Has there been good collaboration? Has it served as inspiration for innovation?
