Receive my cordial greetings as well as a sincere congratulation for performing with such great success considering the high responsibility that accompanies your position.

Child development and the improvement of their life quality is one of the priorities of our government, therefore preventing early use of alcohol, tobacco and other drugs is fundamental.

The Guanajuato State Government acknowledges the innovative Icelandic Model of Adolescent Substance Use Prevention as its results have been recognized worldwide. This methodology is being implemented in 25 municipalities of the State.

We have found a great ally for this important task in the Icelandic Centre for Social Research and Analysis (ICSRA) and Planet Youth, which is a global reference in the prevention of drug use of young people.

As a result of this work, Guanajuato will host the Planet Youth International Congress for Substance Use Prevention 2021. We cordially invite you. It would be an honor to receive you here in Guanajuato.

The Congress will take place from November 30th to December 4th 2021 in León, Guanajuato, México, site of great international events.

Guanajuato State is located in central Mexico, a historically prosperous region, with a dynamic economy and growth rates superior to the national average.

Please, accept our most highly distinguished consideration.

Lic. Diego Sinhue Rodríguez Vallejo
